

Dear fellow Intercoiffure colleagues,

we are pleased to inform you that we have an exciting offer for ordering towels and compresses made of 100 percent microfibre, for example.

**Belisse Beauty** microfibre textiles with their unique quality are the best solution. This starts with washing your hair: On the one hand, the towels absorb water optimally, on the other hand, they dry very quickly. Applying bleaching products, for example, is also no problem. As the microfibre towels do not absorb any foreign dye, no residue remains on the towels. Using these textiles saves time and energy costs. They are easy to wash and dry twice as fast as conventional cotton textiles. Thanks to the wide range of colours, you can match the towels perfectly to your salon's own design.

Noticeably thicker and with improved water absorption, the towels of the new "Prestige" microfibre generation are significantly softer and more pleasant on the skin. Thanks to their stain resistance, they also always have a clean appearance.

**Belisse Beauty** - a long-standing supporter of our charity golf cup "Play for Life" - now wants to continuously generate further donations for Education for Life.

**With every order you support our charity project Education for Life.**
